**Computer Science 3rd-year student at The Academic College of Tel Aviv-Yaffo.
Experienced in Python, Javascript, C#, C++.**

Team player, fast learner, and highly motivated to learn and improve.

EDUCATION

2019 - Present - 3rd year student of B.Sc in Computer Science at The Academic College of Tel Aviv-Yaffo.

Main courses include: Javascript, Algorithms, Data Structures, Computation, C#, C++, C.

Udemy self-taught courses such as Python, Javascript, HTML, CSS, Nodejs., React.

Projects:

Social Network Application

Application for communication and exchange of thoughts. You can post, read, comment, and send directed messages in real-time.

The application was built using React for the frontend, and Node.js for the backend and authentication.

Election Management System

Election system project using C++. Writing the project, I practiced collaboration with a teammate, OOP principles such as polymorphism, inheritance, and encapsulation.

Course Review Website- Writing this project, I practiced using Cloud Firestore, firebase authentication and React Native for the frontend.

Bulls and Cows game using Windows form application (C#)

Todo List Application using (React)

3D game using Unreal engine - <https://youtu.be/YU8RaxbQw-E>
